Sprint 1 Goals:

Our goal for this sprint is to get everyone more acquainted with Unity and to get basic input/display functionalities for our game with a basic user interface.

User Stories and Tasks:

1. As a user, I want to type characters using my keyboard and have them displayed on my screen so I can see what I typed.
 - a. Create script for taking input from keyboard to send to canvas (3)
 - b. Connect script to canvas elements to display inputted text (3)
 - c. Research and design for Unity input controls and canvas elements (2)

Total for User Story 1: 8 hours

2. As a user, I want to see text on the screen so I know what to input into my keyboard.
 - a. Grab text from a stored list of strings to send to canvas (2)
 - b. Display text onto canvas in an orderly fashion (2)

Total for User Story 2: 4 hours

3. As a user, I want to see a basic user interface so I can start, restart, and exit the game.
 - a. Create a main menu with buttons (2)
 - b. Scripts for starting, restarting, and exiting the game (2)

c. Scene management (1)

d. Research and Design for Unity UI elements (2)
