Sprint 2 Report: Speed Hacker

Team: 1WPM (Jasper Yeh[PO], Joshua Shier[SM], Anisha Trivedi, Emilio Angeles)

Sprint Completion Date: May 8, 2018

Revision #1

Revision Date: May 7, 2018

Actions to Stop Doing:

1. Everything is going smoothly with no problems. This is mainly because we scoped the project well for the amount of time we are able to put in.

Actions to Start Doing:

1. Comment code more thoroughly and maintain a consistent coding style. This is both for the grade and for everyone on the team to understand the code better.

Actions to Keep Doing:

1. Team project work times. These are when we complete the most user stories.
2. Scrum meetings help us figure out what has been done and what we need to focus on.
3. Communicating consistently on Facebook Messenger. This helps set up project meeting times.

Work Completed:

1. As a user, I want to see words highlighted in color so I know which words I typed incorrectly.
2. As a user, I want an intuitive user interface so I can easily access all of the program's features.
3. As a user, I want to be able to see my personal best words per minute so I can set personal goals.

Work Completion Rate:

User Stories Completed: 3

Total Estimated Ideal Work Hours Completed: 20

Total Number of Days in Sprint: 13

Average User Stories Per Day: 0.24

Average Ideal Work Hours Per Day: 1.6
